- Lynne – I have worked with you from my beginnings on Ward 12 in our office outside 'those' toilets when there were just the 2 of us to our much nicer accommodation and larger team on ward 26. Over the last 10 years we have spent working together I have gained an immense amount of knowledge and had more than a few laughs along the way. The physiotherapy team and I would like to thank you for all you have taught us and the legacy you have left, to the patients, physiotherapists and CF team. We will probably spend the first few days in a daze before reality kicks in and we realise the standards we have to strive to continue!
