

# What's **Your** Story?

## Living with Cystic Fibrosis?

**Ever wanted to tell your story in a way that's meaningful to you?**

Join me for a creative research project, gathering personal stories around reproductive choices.

Whatever your experience, we're offering a series of workshops to explore your stories and to make a short film - a digital story.

### Whether you're:

- Pregnant or parenting a child
- Have chosen not to have children
- Thinking about your future option
- Or are facing challenges with fertility
